

Science Experiments Inspired by The Bedtime Book of Impossible Questions

Experiment 1: Rainbow in a Jar

Question: What makes rainbows?

Materials Needed:

- Clear jar or glass
- Water
- Sugar
- Food coloring
- Spoon

Instructions:

1. Fill jar with water
2. Add sugar and stir until dissolved
3. Add different food coloring drops
4. Watch the colors create layers like a rainbow!

Experiment 2: Dream Catcher Mobile

Question: What happens when we dream?

Materials Needed:

- Paper plate
- Yarn or string
- Beads
- Scissors
- Markers

Instructions:

1. Cut a circle from the paper plate
2. Weave yarn through to create a web
3. Add beads and decorate with markers
4. Hang in window and discuss dreams!

Experiment 3: Star Viewer

Question: How do stars shine?

Materials Needed:

- Paper towel tube
- Black paper
- Flashlight
- Pin or needle

Instructions:

1. Cover tube with black paper
2. Poke small holes to create star patterns
3. Shine flashlight through tube in dark room
4. See your constellation!
